RE: Billing by the Environmental Health Division

Dear DDES customer:

The Environmental Health Division (EHD) of Public Health – Seattle & King County reviews documents for King County's Department of Development and Environmental Services for compliance with the noise codes of King County.

In previous years, DDES has invoiced customers for all environmental review of projects submitted to our agency. Beginning February 2007, EHD will be invoicing customers directly for EHD's environmental noise review work. Their minimum billing is 0.5 hours and hourly fees are as follows:

EHD billing

\$165.13/hr 2007

\$173.39/hr 2008

Please note that EHD's environmental review work and invoicing are completely separate and distinct from the work and invoicing performed by DDES.

Should you have any questions or concerns about any EHD work or invoicing, please contact EHD directly. Contact Lee Dorigan, Environmental Health Services Supervisor, at 206-296-4795 or lee.dorigan@kingcounty.gov if you have questions or comments.

Sincerely,

Stephanie Warden
Director
